For best results take 1 capsule twice a day with food

Additional Information

Ultra pure wild deep sea fish oil rich in Omega 3 fatty acids with high levels of EPA and DHA. Your body cannot manufacture essential fatty acids - that is why they are ‘essential’.

Essential fats ‘oil’ the body by lubricating the joints and skin, as well as being a vital component of every human cell. The body needs them to balance hormones, insulate nerve cells, keep the skin and arteries supple and to keep the body warm.
